Graphic: Adobe XD | Photoshop | After Effect | Primer Pro | Figma | Blender Google SketchUP | Unreal Engine 4

WORK EXPERIENCE

KYLO APPS | FLUTTER DEVELOPER

Apr 2022 - May 2022 | Remote

- Created over 30+ screens and integrating QR scanning and deep linking features.
- Successfully connected API endpoints to ensure seamless app functionality.
- Created a user-friendly and visually appealing interface based on provided design.

Vulmiqi | Flutter Developer

Dec 2021 - Mar 2022 | Remote

- Developed a Flutter-based visiting card app for multiple businesses at Vulmiqi.
- Created an intuitive and user-friendly interface to facilitate seamless navigation and usage.
- Employed best practices to ensure app functionality and stability.

PROJECT EXPERIENCE

Class Link open source

A fully production level app with a user-friendly UI that allows users to view their current class with just one click, access holidays list, resources (notes and PYQs), and more. Over **3K+ active users** opening the app approximately 5 times a day. Features include a great user-friendly UI, easy access to current class, holidays list, resources, and more. *Flutter, Dart, Python, Go*

Recite: Text-to-speech app

Led the team in developing a feature-rich text-to-speech app with sophisticated functions such as PDF integration, NLP-based phrase detection, and Google TTS implementation. Implemented complex UI components and managed caching for optimal performance. Reached 10,000+ downloads.

Flutter, Dart, Kotlin, Java

PUBLICATIONS

draggable_home | Pub.dev

open source

Created and maintained a popular Flutter package, draggable_home for implementing sliding up and fully-stretchable features. Received 400+ likes on pub.dev and gained 100+ stars on GitHub for the "draggable_home" package. Currently used by 200+ projects, showcasing its popularity and wide adoption in the Flutter community.

file manager | Pub.dev

open source

Developed FileManager package for Flutter with **100+ likes** on pub.dev and **50+ stars** on GitHub. Created intuitive widget for file and folder management, seamlessly integrating with Flutter framework. Used by over **170** developers, providing powerful file management features for Flutter applications.
